

## STRATEGIC PLANNING SERVICES

### *Representative Project Summary*

<b>Client</b>	Telecommunications Company
<b>Location</b>	Throughout the U.S.
<b>Project Summary</b>	<p>TITAN provided EHS program consulting services for nearly all EHS aspects of company operations. Following are some of the services provided:</p> <ul style="list-style-type: none"><li>• TITAN merged the company’s environmental and health and safety functions.</li><li>• TITAN evaluated compliance options with federal, state, and local regulatory requirements and developed an environmental risk management decision-making process.</li><li>• TITAN developed asbestos and lead management programs based on risk and cost-benefit analyses.</li><li>• TITAN developed training programs for internal personnel and contractors, regulatory summaries for operations in a twenty-state area, and procedures and job aids for all levels of company staff.</li><li>• TITAN created a “Master Plan” approach to routine activities such as storm water permitting for linear construction.</li><li>• TITAN produced decision trees to address real estate management issues including asbestos, lead, underground storage tank management, and hazardous materials management.</li></ul>

---

<b>Client</b>	American National Power
<b>Location</b>	Texas and Colorado
<b>Project Summary</b>	<p>TITAN evaluated environmental liabilities on ten power plants. The due diligence team performed site visits and reviewed historic environmental documents to identify environmental liabilities associated with each power plant. The evaluation process included development of decision trees, evaluation of numerous environmental response actions, and preparation of a probability analysis for the estimated cost. Based on the results of this analysis a cost was developed to allow for negotiation of a discounted purchase price.</p>
